

Multisystemic Therapy[®]

Proven Results

for Families and Communities

A message for:

Juvenile Justice

Who Am I?

“Working in our state’s juvenile-justice department, we are always looking for ways to improve the system. We want to lower the number of incarcerated youth. We want youth released from our facilities to get back into school and stay out of trouble. And while we know it’s better to keep young people closer to home, at the same time, we want safer communities. Any suggestions?”

What Is MST?

Multisystemic Therapy[®]; it is an intensive family and community-based treatment program that addresses all aspects in the chronic and violent offender’s environment. We work with family, school, friends, community. And we get proven results. If you want the best outcomes, have those in your system refer your toughest cases to us. We will make a difference.
